Operating Instructions for the School Staff for running an E Class

Getting the System Ready

- Switch on/ Power on the UPS (this is kept below the TV - in a wooden box)
- Switch on the TV display using the Power on switch / TV remote (red button).
- Switch on the CPU (button is visible on the front side of the CPU)
- Once all these three units are Power ON, the display will show the "Windows".
- The display will show the USER name (DBN)
- Below this, The password box will appear, wherein you have to key in (123456).

When the above steps are completed, the System is ready to use.

Using the Loaded Digital Content for Teaching

- A folder titled DBN will appear on the screen.
- Double Click on this DBN folder. Two folders will open out.
- There are two Folders inside this DBN folder (i) Digital books (ii) Digital Video.

Digital books:

- Double clicking on the Digital Books Folder will open out the following sub folders : (a) class wise details (b) subject wise details.
- The teacher can proceed to select the class and the subject. The relevant Digital book will open up and the teacher can use this digital book to teach the class

Digital Videos:

- Double-clicking on Digital Video Folder will open out the following sub folders: (a) class wise details, (b) subject wise details, (c) motivational videos.
- The teacher can proceed to select the class and the subject Or go on to selection Motivational Videos. The relevant Digital Video content will open up and the teacher can use this digital content to teach the class. Some of the Digital Videos are self learning and do not need teaching by a tutor.
